

Test Report

Report No.: FJHJ250924827

Date: Sept.29,2025

Page 1 of 12

Applicant Information:

Applicant: Fujian Quanzhou Billion Company Limited

Address: Room 1505, Building 3, Shengrong Plaza, No. 1110 Dongfu Road, Fengze District, Quanzhou City, Fujian Province, China

Sample Information provided by applicant:

Sample Name: Backpack

Sample Received Date: Sept.24,2025

Test Period: Sept.24,2025 to Sept.29,2025

Summary of Test Results

Test Requested:	Conclusion
-.As specified by client, Screening tests for 250 substances of high concern (SVHC) were carried out based on the candidate list of substances of high concern for authorization consideration published by the European Chemicals Agency until 25 th June 2025 (in accordance with EU REACH Regulation 1907/2006).	Pass

Fu jian H J quality Inspection technical service co.,LTD

Authorized signatory

Test Report

Report No.: FJHJ250924827

Date: Sept.29,2025

Page 2 of 12

Test Result(s):

1.SVHC(250 SVHCs) :

Test Method: Refer to In-house method, EN 14362-1:2012, US EPA 3550C:2007, AfPS GS 2019:01

PAK, ISO17353:2005, US EPA 3052:1996, BS EN 14582:2016, US EPA 3060A:1996, IEC 62321-6:2015, EN14362-3:2012, US EPA3050B:1996, Analyzed by ICP-OES, UV-VIS, GC-MS, HPLC-DAD/MS and Colorimetric Method.

Chemical Substance	Unit	CAS NO.	Result	Limit	Judge
			Black main fabric		
Dibutyl phthalate (DBP)	mg/kg	84-74-2	0.036	0.1	Pass
Other SVHCs in Chemical List	mg/kg	-	N.D.	0.1 (Each of Listed)	Pass

Note :

1.SVHC = Substances of Very High Concern

2.% = percentage by weight

3.N.D. = Not Detected (<Report Limit)

4.RL = Report Limit = 0.010%

5.** According to the 5.2.1 item of the second version of ECHA "Guidance on requirements for substances in articles", 2011, the selected test methods only show the existence of certain elements rather than the existence of substances, using additional measurements to screen for the existence and identification of substances in a sample when necessary.

6.Report Results: based on measurements in most cases will identify the chemical constituents in the sample but not necessarily "the substance" which were originally used to produce the article, professional consults, products information, testing processes, features of materials, characteristics of the SVHC and chemical analysis etc to obtain the assessments results according to the 5.2 item of the second version of ECHA "Guidance on requirements for substances in articles", 2011.

7.Report Limit: Be obtained from the uncertainty, the 0.1 % threshold and the ECHA "Guidance on requirements for substances in articles".

8.In accordance with Regulation (EC) No 1907/2006, any producer or importer of articles shall notify the European Chemicals Agency(ECHA), In accordance with Article 59(1) of the Regulation if:

-the substance is present in those articles in quantities totaling over one tone per producer or importer per year;

-the substance is present in those articles above a concentration of 0.1% weight by weight(w/w).

9. Article 33 of Regulation (EC) No 1907/2006 requires supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) in a concentration above 0.1% weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, he name of that substance.

10. ①: In view of the substances are established as UVCB substances(substances of unknown or variable composition, complex reaction products or biological materials) consisting of different and variable constituents, the test results are calculated based on the main constituents of the representative compounds for substances. When the content of the representative substances is equal to or higher than 0.1% (w/w), the presence of the substance in the sample need to be further confirmed by checking MSDS or requesting from suppliers.

11. ② In view of the substance contain variable substances, the test results are calculated based on main constituents of the representative compounds for the substances, and the test results of the representative compounds are calculated based on the result of specified heavy metal elements.
